S. No.	Content	Name
1	Name of the Programme	Blood Donation camp
2	Date & Time	24.11.2023 & 11.00 – 12.30 PM
3	Conducted by	N.S.S, R.R.C & Dept of Zoology
4	No. of Students attended	33
5	Chief Guest	NIL
6	Convenor	B.R.K.Kishore, Lecturer in Zoology

Date: 31st January 2024

Location: SGK Govt Degree College, Vinukonda

Organizers: NSS (National Service Scheme), Red Ribbon Club, Department of Zoology, in collaboration with the Red Cross Society of Narasaraopeta

Participants:

Staff Members: 03 staff members donated blood

Students: 30 students donated blood

Volunteers: 10 volunteers assisted in organizing the event

Objective:

The Blood Donation Camp, organized jointly by the NSS, Red Ribbon Club, Department of Zoology, and the Red Cross Society of Narasaraopeta, aimed to contribute to the noble cause of saving lives by collecting blood donations from willing donors among the college staff and students. Additionally, the camp aimed to raise awareness about the importance of regular blood donation and promote a culture of voluntary blood donation within the college community.

Activities:

Blood Donation Drive:

The camp commenced with a registration process where willing donors signed up to donate blood.

Trained medical professionals from the Red Cross Society supervised the blood donation process to ensure the safety and well-being of the donors.

Adequate arrangements were made for donor comfort and post-donation refreshments.

Blood Group Mapping:

Concurrent with the blood donation drive, blood group mapping was conducted for participants who volunteered for the service.

This activity aimed to create a database of blood groups among the college staff and students, facilitating quick access to compatible blood in times of emergencies.

Outcome:

The Blood Donation Camp witnessed enthusiastic participation from both staff and students, reflecting a strong sense of social responsibility and altruism within the college community. A total of 33 units of blood were collected during the camp, which has the potential to save numerous lives in times of need. The blood group mapping activity also contributed to building a comprehensive database that can serve as a valuable resource for medical emergencies.

Recommendations:

Continuation of blood donation drives at regular intervals to maintain a steady supply of blood for medical emergencies.

Organizing awareness sessions and workshops to educate students about the importance of regular blood donation and dispel myths and misconceptions surrounding the process.

Collaboration with local healthcare institutions and blood banks to expand the reach and impact of future blood donation initiatives.
