09.02.2024

TIME: 11.00 A.M – 02.30 PM

CONDUCTED BY
NSS, HEALT CENTER & DEPT OF ZOOLOGY

Activity Report

S. No.	Content	Name
1	Name of the Programme	OBSERVATION OF DEWORMING DAY
2	Date & Time	09.02.2024 & 11.00 – 02.30 PM
3	Conducted by	<i>N.S.S, HEALTH CENTE & Dept of Zoology</i>
4	No. of Students attended	86
5	Chief Guest	Dr K.Srinivasa Rao, Principal
6	Convenor	B.R.K.Kishore, Lecturer in Zoology

Date: 9th February 2024

Location: SGK Govt Degree College, Vinukonda

Participants:

First-Year Students: 86 students

Objective:

The Deworming Day observed in SGK Govt Degree College, Vinukonda, aimed to promote the health and well-being of first-year students by administering Albendazole tablets as a preventive measure against intestinal parasites. The activity aimed to raise awareness about the importance of deworming and encourage students to adopt healthy practices for disease prevention.

Activities:

Distribution of Albendazole Tablets:

On Deworming Day, Albendazole tablets were distributed to all first-year students.

Trained healthcare professionals were present to provide instructions on the proper dosage and administration of the medication.

Health Education Session:

Prior to administering the tablets, a brief health education session was conducted to educate students about the importance of deworming.

Information regarding the transmission, symptoms, and consequences of intestinal parasitic infections was provided to increase awareness among students.

Monitoring and Follow-Up:

After the administration of Albendazole tablets, students were monitored for any adverse reactions or side effects.

Follow-up instructions were given to students to ensure they adhere to proper hygiene practices and dietary recommendations to prevent reinfection.

Outcome:

The Deworming Day activity proved to be successful in reaching out to a significant number of first-year students and providing them with preventive healthcare measures against intestinal parasites. By administering Albendazole tablets and conducting health education sessions, the college aimed to contribute to the overall health and well-being of its students, fostering a healthier learning environment.

Recommendations:

Organize similar deworming activities periodically to ensure all students receive preventive treatment against intestinal parasites.

Collaborate with healthcare professionals and public health authorities to enhance the effectiveness and reach of deworming initiatives.

Incorporate topics related to parasitic infections and preventive healthcare measures into the college curriculum to promote long-term awareness and behavior change among students.
